ELECTRONIC STATEMENT OF DEFICIENCIES, STATE FORM 1424 (e-citation) USER GUIDE

The "LTC-Citation-Narratives CDPH Template" is a MSAccess database "template" designed to permit setting up the electronic citation file for user-friendly viewing.

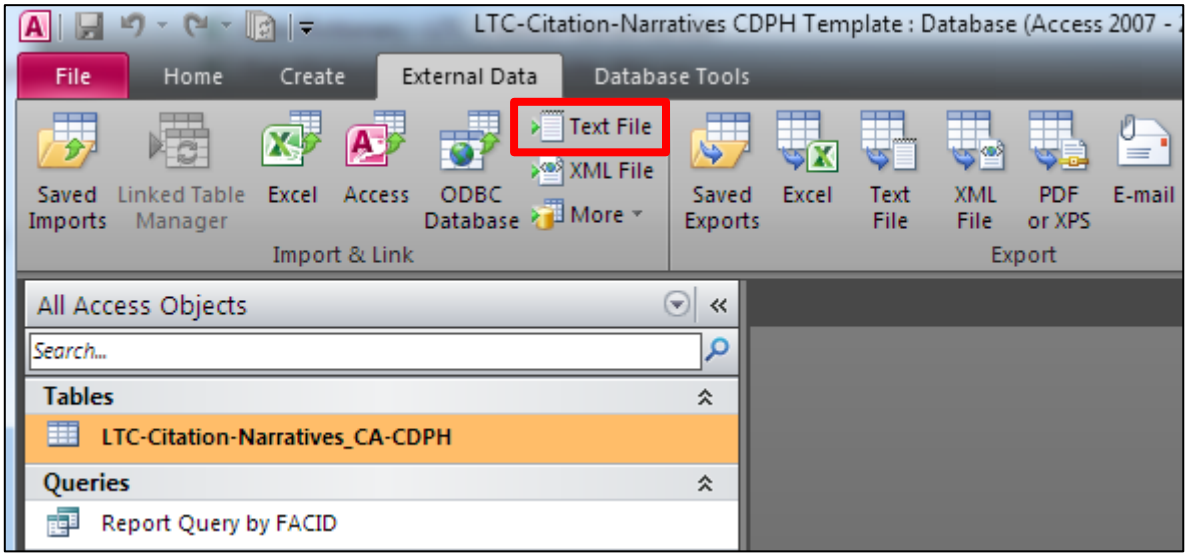

EXPORT AND OPEN THE "LTC-CITATION-NARRATIVES CDPH TEMPLATE" DATABASE

EXPORTING THE DATA

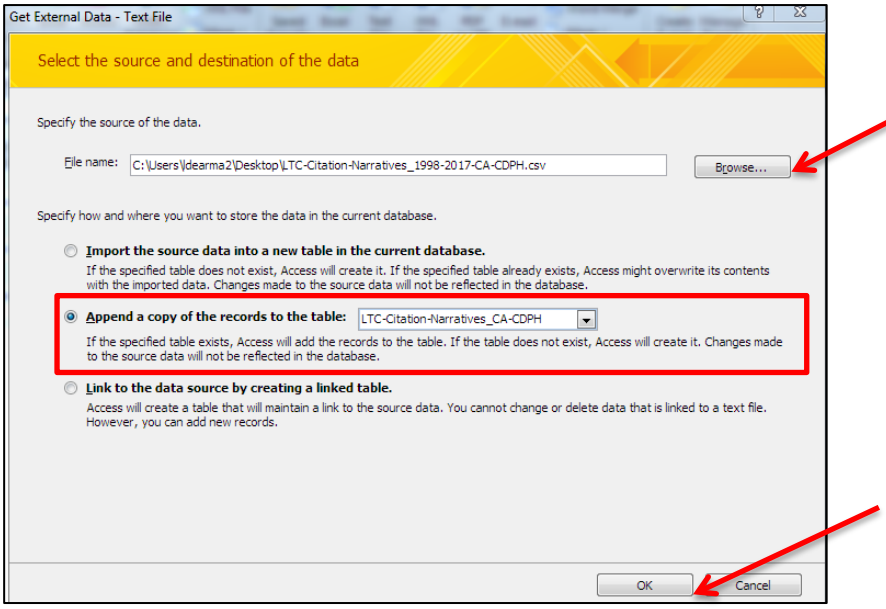

1. Go the CHHS Open Data Portal for data downloads.
2. Export and Download as "CSV". *note: Not "CSV for Excel".

IMPORTING THE DATA

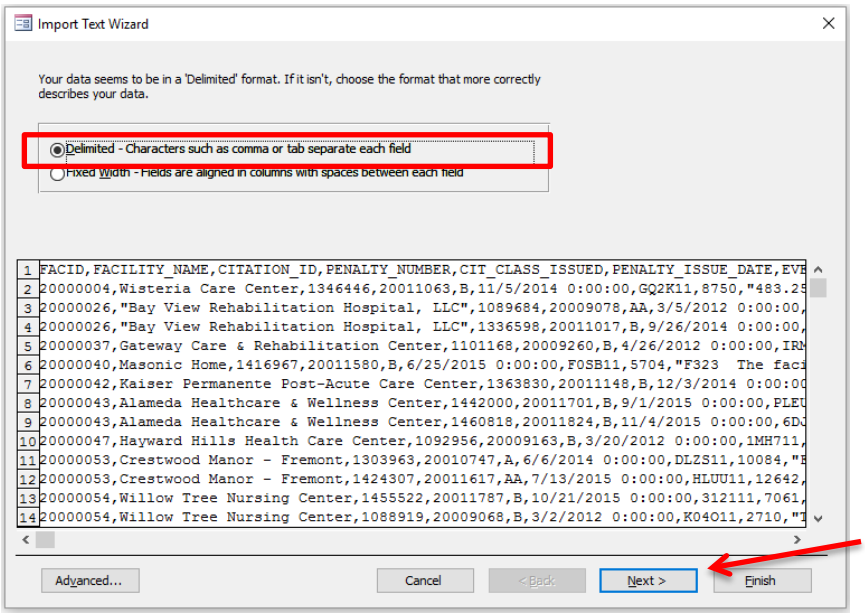

1. Click on the External Data tab, in the Import & Link group on Microsoft Access, as shown in the *screenshot* below and click on the "Text File".

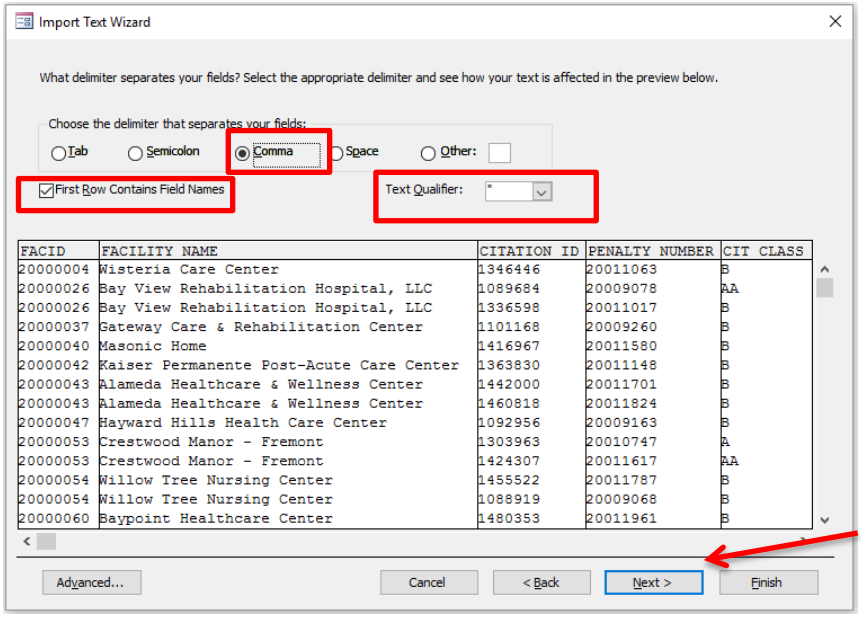

2. The "Get External Data", *screenshot* will be shown below. Select the CSV file by clicking the "Browse" button. (*Note: the file name must be less than 64 characters otherwise Microsoft Access will not be able to import it).
3. In the same window, after selecting the CSV file, choose the "Append a copy of the records to the table:" option and select the table "LTC-Citation_Narratives_CA-CDPH" from the drop-down list. After selecting the option, press "OK" to continue.

4. The Import Text Wizard opens automatically. Next, make sure the option "Delimited - Characters such as comma or tab separate each field" is selected as shown in *screenshot* below and click "Next".

5. Next, make sure "Comma" is selected in the "Choose the delimiter that separates your fields", check the box for "First Row Contains Field Names" and selected " " " in the "Text Qualifier" as shown in *screenshot* below and click "Next" to continue.

6. Click "Next" or "Finish" to complete the import in step 7.
7. Done.

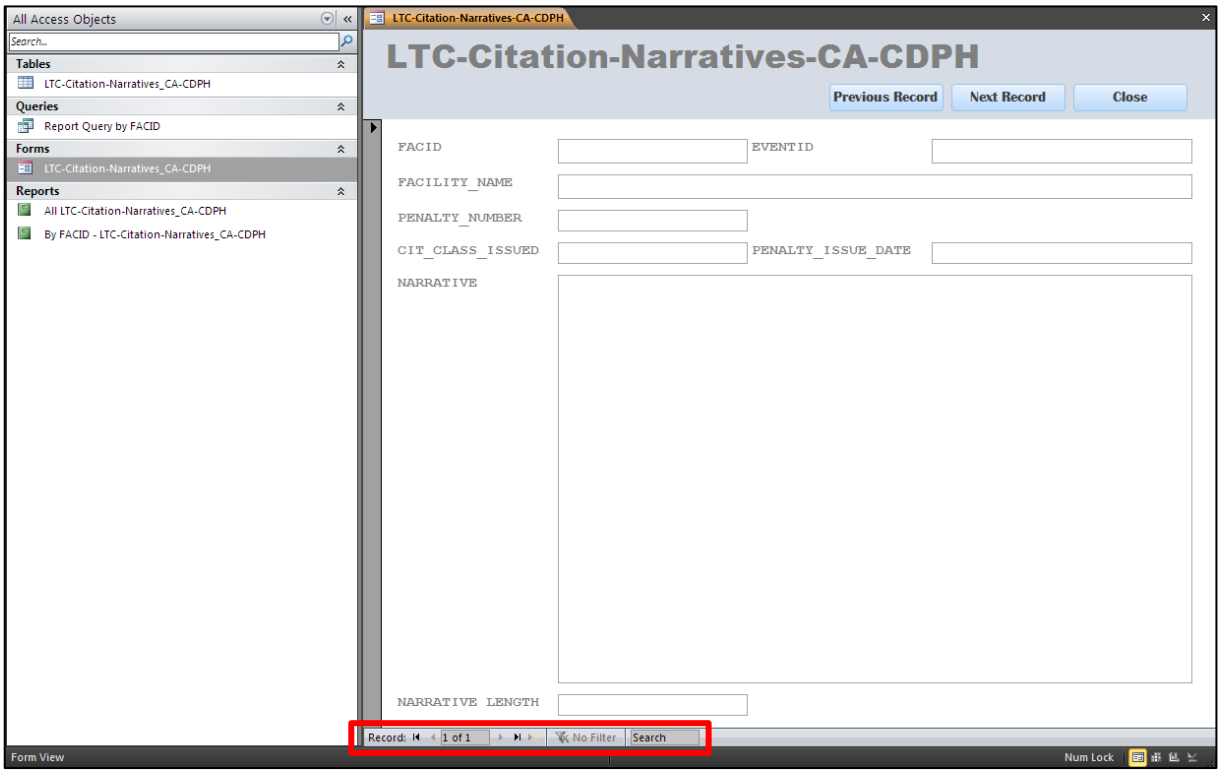

VIEWING THE DATA AS A MICROSOFT ACCESS FORM

The Navigation Pane should now display all the objects in the database including the form "LTC-Citation-Narratives_CA-CDPH".

This single form option was created to be a user-friendly interface with the data table which allows a user to view one record at a time in the form.

Below is the sample form that displays one record from the table. At the bottom of the form, you will see record selectors. This allows you to navigate from one record to another. Or you can you the top control "Previous Record" or "Next Record" to navigate the records. You can also see how many records that you can navigate between in this form. You may use the Search to look for the specific citation or facility.

VIEWING THE DATA AS A MICROSOFT ACCESS REPORT (2 Options)

This report can be used to export and print all or individual citations by FACID.

Option 1: Report "All LTC-Citation-Narratives_CA-CDPH" which open all citations in one report.

Option 2: Report "By FACID - LTC-Citation-Narratives_CA-CDPH" which is a query by FACID. Upon select this report, a search box appears "Please Enter the FACID." After the FACID is entered, only the citations with the specific FACID are shown in the report.

Preview a report

1. Select the report "**All LTC-Citation-Narratives_CA-CDPH**" or "**By FACID - LTC-Citation-Narratives_CA-CDPH**" in the Navigation Pane.
2. On the File tab, click Print, and then click Print Preview.
3. Access opens the report in Print Preview. You can use the commands on the Print Preview tab to do any of the following:
    a. Print the report;
    b. Adjust page size or layout;
    c. Zoom in or out, or view multiple pages at a time;
    d. Export the report to another file format. (i.e. PDF)

4. To return to the database workspace, on the Print Preview tab, in the Close Preview group, click Close Print Preview.

PRINTING THE REPORT

In addition to printing from Print Preview, you can also print a report without previewing:

1. Select the report "**All LTC-Citation-Narratives_CA-CDPH**" or "**By FACID - LTC-Citation-Narratives_CA-CDP**H" in the Navigation Pane.
2. On the File tab, click Print.
3. To send the report directly to the default printer without setting printer options, click Quick Print.
4. To open a dialog box where you can select a printer, specify the number of copies, and so on, click Print.
